PROJECTS:

Praveen Events | [LIVEVIEW](#) | (REACT|FIREBASE)

- **Built a responsive Event Management Platform** with real-time event bookings, secure user/admin access using **Firebase Authentication**, and seamless client-admin communication. Integrated **EmailJS** to send automated notifications (e.g., booking confirmations) directly from the frontend without requiring a backend server.
- **Utilized Firebase Realtime Database** for live event data updates and implemented dynamic data fetching (event categories, gallery images, and services) using **Axios** from external JSON APIs. Applied **Bootstrap** for consistent layout and design, enabling rapid development of responsive and mobile-friendly components.

Praveen Stores | [LIVEVIEW](#) | (HTML|CSS|BOOTSTRAP|JAVASCRIPT|FIREBASE)

- **Developed AJ Stores**, a feature-rich e-commerce platform with secure user authentication (**Sign Up & Login**) to provide personalized user experiences. Designed category-specific pages for **Men, Women, and Kids**, incorporating advanced filtering options to enhance product discovery and user navigation.
- **Implemented a dynamic shopping cart**, streamlined the checkout process with multiple payment options, and developed an order confirmation system with real-time order tracking. Ensured a responsive and interactive user interface for seamless navigation across desktop, tablet, and mobile devices.
